IM Ultimate Frisbee Rules and Information

GENERAL RULES

1. The supervisor on duty reserves the right to remove any player from competition who has violated any Emory University Intramural Policy or Rule and/or endangered any player or IM staff member. Ejected players must leave the facility immediately. Any player or team that exhibits a pattern of troublesome behavior will be removed from intramural sports. Supervisors also have the authority to end a game.

2. Three (3) Unsportsmanlike Penalties will result in a team disqualification regardless of the score. Two (2) Personal Unsportsmanlike Penalties will result in the player leaving the game. Only a team's designated Captain is allowed to confer with the officials. There is a ZERO TOLERANCE policy for any unsportsmanlike behavior directed towards players, officials, and staff.

3. Participants are not allowed to play in a manner that is potentially dangerous or reckless. Safety for all our participants is our number one priority. Any action(s) that is deemed dangerous and/or reckless by the game's official or the Intramural Sport Supervisor will result in either an unsportsmanlike penalty or an ejection depending on the severity of the action. Intramural managers and players should consider this rule their warning not to play in a dangerous or reckless manner.

PLAYER ELIGIBILITY

1. Participation is limited to currently-enrolled, fee-paying students, Emory University faculty/staff members, spouses, and Alumni.

2. All players must have an Emory University ID or Government Issued photo ID (i.e. Driver’s License) at each game to sign-in. ID Cards will be checked EVERY GAME.

3. All players MUST be listed on the printed scoresheets and cannot be written in at gametime.

4. Varsity & Club Athletes: Varsity players are not eligible to participate in similar intramural sports. Each team can have up to two club players in a similar sport. Teams who violate this policy will receive a forfeit loss for each game the violation has taken place and will be ineligible for the playoffs.

---RULES GOVERNING PLAY---

I. LENGTH OF GAME

A. A full game will consist of either:

- Two (20) minute halves running clock, or

- The first team to score 15 points

B. Each overtime period lasts for five (5) minutes.

C. The clock starts when:
- An offensive player gains possession of initial throw-off

D. The clock stops:

- After a goal;
- For time-outs;
- For injuries;

II. POINTS

A. A goal is worth one (1) point.

III. TIME-OUTS

1. TIME-OUT

A. Each team is permitted two (2) time-outs per half

- Each team is permitted exactly one (1) time-out in overtime

B. Each time-out lasts up to two (2) minutes.

C. The player calling the time-out must call "time-out" loudly.

D. A time-out may be called by either team after a goal and before the ensuing accepted throw-off.

E. During play, only the team with possession of the disc can call a time-out.

F. It is a turnover if a player calls a time-out when his/her team has no time-outs remaining.

2. INJURY TIME-OUT

A. Injury time-out can be called by any member of the injured player's team or referee/observer

IV. PLAYERS/SUBSTITUTIONS

1. Substitutions can be made only:

A. After a goal and before the ensuing accepted throw-off.

B. Before the beginning of a period of play;

C. To replace an injured player(s).

2. If a team replaces an injured player(s), the opposing team has the option of substituting a like number of, or fewer players.

D. Games will be played 7v7

V. STARTING AND RESTARTING PLAY
1. Before a game starts, each team designates one captain to represent that team in disagreements and arbitration.

2. Start of periods of play:

A. Representatives of the two teams each flip a disc. The representative of one team calls "same" or "different" while the discs are in the air. The team winning the flip has the choice of:

- Receiving or throwing the initial throw-off; or

- Selecting which goal they wish to defend initially.

B. The team losing the flip is given the remaining choice.

C. The second half begins with an automatic reversal of the initial throw-off position.

D. If overtime periods are needed, the disc flipping procedure is repeated for the first overtime period. The initial throw-off position of subsequent overtime periods is the reverse of the throw-off position that started the previous overtime period.

3. Throw Off

A. Play starts at the beginning of each period of play and after each goal with a throw-off.

B. Each time a goal is scored, the teams switch the direction of their attack and the team which scored throws off.

C. Positioning prior to the throw-off.

- The players on the throwing team are free to move anywhere in their defending endzone, but may not cross the goal line until the disc is released.

- The players on the receiving team must stand with one foot on their defending goal line without changing position relative to one another.

- The throw-off may be made only after the thrower and a player on the receiving team raise a hand to signal that team's readiness to begin play.

- As soon as the disc is released, all players may move in any direction.

- No player on the throwing team may touch the throw-off in the air before it is touched by a member of the receiving team.

- If a member of the receiving team catches the throw-off on the playing field proper, that player must put the disc into play from the spot.

- If a member of the receiving team touches the disc during flight of the throw-off (whether in- or out-of-bounds) and the receiving team fails to catch it, the team which threw-off gains possession of the disc at the nearest point on the playing field proper.

- If the receiving team allows the throw-off to fall untouched to the ground, and the disc initially lands in-bounds, the receiving team gains possession of the disc where it stops. If the disc initially lands in-bounds, then goes out-of-bounds, the receiving team gains possession at the point on the playing field proper nearest to where the disc first went out-of-bounds.
- If the throw-off lands out of bounds, the receiving team, before touching the disc, makes a choice of:

1. Putting the disc into play at the nearest point on the playing field proper to where the disc crossed the perimeter line.

2. Requesting a re-throw.

**VI. OUT-OF-BOUNDS**

1. Any area not on the playing field is out-of-bounds. The perimeter lines themselves are out-of-bounds.

2. A disc is out-of-bounds when it first contacts an out-of-bounds area or contacts anything out-of-bounds.

3. The disc may fly outside a perimeter line and return to the playing field, and defensive players may go out-of-bounds in order to make a play on the disc.

4. A player is out-of-bounds when s/he is contacting an out-of-bounds area. When a player is in the air, his/her in or out-of-bounds is determined by where the ground was last contacted by the player.

5. For a receiver to be considered in bounds after gaining possession of the disc, the first point of contact with the ground must be completely in-bounds. If any portion of the first point of contact is out-of-bounds, the player is considered out-of-bounds.

6. Should the momentum of a player carry him/her out-of-bounds after making a catch and landing in-bounds, the player is considered in-bounds. The player carries the disc to the point where s/he went out-of-bounds and puts the disc into play at that point.

7. To restart play after the disc has gone out-of-bounds, a member of the team gaining possession of the disc must carry the disc to the point of the playing field proper where the disc went out-of-bounds, and put the disc into play at that point.

8. The thrower may pivot in- and out-of-bounds, providing that some part of the pivot foot contacts the playing field.

9. If a pass does not come in bounds the opposing team gains possession of the disc where it left the field of play only if the defense did not contact the disc. If the defense contacted the disc, the disc must be put into play at the point on the playing field proper closest to where the contact occurred.

**Endzone**

1. If a team gains possession in the endzone which it is defending:

   A. The player taking possession must make the immediate decision to either:

      - Put the disc into play from that spot, or

      - Carry it directly to the closest point on the goal line and put it into play from there. If this option is chosen, the player taking possession commits the player to put the disc into play at that point.

**VII. SCORING**
1. A goal is scored when an offensive player completes a pass to a teammate in the endzone which his/her team is attacking.

2. In order for the receiver to be considered in the endzone after gaining possession of the disc, his/her first point of contact with the ground must be completely in the endzone.

3. A player cannot score by running into the endzone with the disc. Should a receiver's momentum carry him/her into the endzone after gaining possession, the receiver must carry the disc back to the closest point on the goal line and put the disc into play from there.

4. A player must be completely in the endzone and acknowledge that s/he has scored a goal. If that player plays the disc unknowingly into a turnover, then no goal is awarded.

VIII. TURNOVERS

1. An incomplete, intercepted, knocked down, or out-of-bounds pass results in a loss of possession.

2. The following actions result in a loss of possession and a check:

   A. If the marker's count reaches the maximum number;

   B. If the disc is handed from player to player;

   C. If the thrower intentionally deflects a pass to him/herself off another player;

   D. If the thrower catches his/her own throw. However, if the disc is touched by another player during its flight it is considered a complete pass and is not a turnover.

IX. THE THROWER

1. The thrower is the offensive player in possession of the disc, or the player who has just released the disc.

X. THE MARKER

1. Only one defensive player may guard the thrower at any one time; that player is the marker.

2. The marker may not straddle (i.e., place his/her foot on either side of) the pivot foot of the thrower.

3. There must be at least one arm length between the upper bodies of the thrower and the marker at all times. It is the mutual responsibility of both players to respect each other's position and not encroach into this area once it is established.

4. The marker cannot position his/her arms in such a manner as to restrict the thrower from pivoting.

   B. The count consists of the marker calling "Stalling" or "Counting" and counting at one second intervals from one to ten (1, 10) loudly enough for the thrower to hear.

   C. If the thrower has not released the disc at the first utterance of the word "ten" ("10"), a turnover and a check result.

   D. If the defense decides to switch markers; and if the new marker wishes to initiate a stalling count, s/he must start again from "one" ("1").
E. In the event of a stall, the once marker, now offensive player, does not have to take the disc after the check. The once thrower, now marker, checks the disc to the new thrower, if s/he does not want the disc, the marker "checks" the disc by placing it on the ground and calling "in play."

F. The thrower may contest a stall call is s/he feels that s/he had released the disc before the first utterance of the word "ten".

1. In the event of a contested stall, if the pass is completed, play stops, and possession reverts back to the thrower. After a check, the marker starts the stall count at eight (8).

2. In the event of a contested stall, if the pass is incomplete, it is a turnover, and play continues without interruption.

XI. THE RECEIVER

1. The receiver is any offensive player either in the act of catching the disc, or not in possession of the disc.

2. Bobbling to gain control of the disc is permitted, but purposeful, controlled bobbling to oneself (i.e., tipping, delaying, guiding, or brushing) in order to advance the disc is considered traveling and is not allowed.

3. The receiver gains possession by demonstrating sustained contact with a non-spinning disc.

4. After catching a pass, the receiver is only allowed the fewest number of steps required to come to a stop and establish a pivot foot.

5. If the receiver is running as s/he catches the disc, the receiver may throw a pass before the third ground contact after catching the disc without coming to a complete stop.

6. If the disc is caught simultaneously by offensive and defensive players, the offense retains possession.

7. If a pass arrives in such a manner that it is unclear whether a catch was made before the disc contacted the ground (grass is considered part of the ground), the player(s) with the best perspective makes the call (usually the receiver).

8. If it is ever unclear where a receiver was in- or out-of-bounds at the point of making a catch, the player(s) with the best perspective makes the call.

9. Force-Out Foul. If an airborne receiver catches the disc, and is contacted by a defensive player before landing, and that contact caused the receiver to land out-of-bounds instead of landing in-bounds, the receiver must either call him/herself out-of-bounds, or call a force-out foul on the defensive player. If this foul occurs in the end zone and it is uncontested, a goal is awarded.

10. First ground contact determines possession. The ground can cause an incomplete pass, resulting in a turnover.

XI. FOULS

1. Fouls are the result of physical contact between opposing players. A foul can only be called by the player who has been fouled and must be announced by calling out the word "Foul!" loudly immediately after the foul has occurred.

2. The player initiating contact is guilty of a foul.

3. Throwing Fouls:
A. A throwing foul may be called when there is contact between the thrower and the marker.

B. Contact occurring during the follow through (after the disc has been released) is not sufficient grounds for a foul, but should still be avoided whenever possible.

C. When a foul is committed by a thrower or the marker, play stops and possession reverts back to the thrower after a check.

D. If the thrower is fouled in the act of throwing and the pass is completed, the foul is automatically declined and play continues without interruption.

E. If the marker is fouled in the act of throwing and the pass is not completed, play continues without interruption.

4. Catching Fouls:

A. A catching foul may be called when there is contact between opposing players in the process of attempting a catch, interception, or knock down. A certain amount of incidental contact during or immediately after the catching attempt is often unavoidable and is not a foul.

B. If a player contacts an opponent before the disc arrives and thereby interferes with that opponent's attempt to make a play on the disc, that player has committed a foul.

C. If a player's attempt to make a play on the disc causes significant impact with a legitimately positioned stationary opponent, before or after the disc arrives, it is considered "harmful endangerment" and is a foul.

D. Dangerous, aggressive behavior or reckless disregard for the safety of fellow players is always a foul.

E. If a catching foul occurs and is uncontested, the player fouled gains possession at the point of the infraction. If the call is disputed, the disc goes back to the thrower. If an uncontested foul (with the exception of a force-out foul) occurs in the end zone, the player fouled gains possession at the closest point on the goal line to the infraction.

XII. VIOLATIONS

1. A violation occurs when a player violates the rules in a manner which does not result in physical contact. (e.g. illegal guarding position by the marker, not establishing a pivot foot on the sideline after carrying the disc in from out-of-bounds, etc.)

2. A violation may be called by any player who recognizes that a violation has occurred. The player must immediately call "violation" or the name of the specific violation loudly.

3. Traveling:

A. The thrower must keep all or part of the pivot foot in contact with a single spot on the field. Should the thrower lose contact with that spot, the thrower has traveled.

B. If the receiver obviously takes more steps than are required to stop after catching a pass, that player has traveled.

C. If a receiver, after receiving a pass on the run, releases a pass after the third ground contact and before coming to a complete stop, that receiver has traveled.
4. Strip:

A. No defensive player may touch the disc while it is in possession of the thrower or receiver. If a defensive player does so, the player in possession calls "Strip."

B. The player in possession then picks up the disc and play continues unhalted from the point where s/he regained possession.

C. If a count was in progress as the disc was stripped, the count is halted, and when the player in possession regains possession, the count restarts at zero (0).

D. A contested strip of the receiver is treated the same as a contested foul; an uncontested strip in the end zone is a goal.

5. Double-Team:

A. Only one marker is permitted to guard the thrower.

B. No other defensive player may establish a position within three(3) meters of the pivot foot of the thrower, unless s/he is guarding another offensive player in that area.

C. Should the thrower recognize a double-team situation, s/he first calls "Double-Team" as a warning. On the first "Double-Team" call, the marker must subtract 2 from the stall count. If "double-team" is called again within the same 10 seconds, play stops and is resumed after a check with the count reset to zero (0).

XIII. POSITIONING

1. It is the responsibility of all players to avoid contact in any way possible. Violent impact with legitimately positioned opponents constitutes harmful endangerment, a foul, and must be strictly avoided.

2. Every player (excluding the thrower) is entitled to occupy any position on the field not occupied by any opposing player, provided that s/he does not cause personal contact in taking such a position.

3. Picks.

A. No player may establish a position, or move in such a manner, so as to obstruct the movement of any player on the opposing team; to do so is a "pick."

B. In the event of a pick, the obstructed player must immediately call "Pick" loudly; play stops and is resumed after a check, unless the continuation rule applies.

4. When the disc is in the air, players must play the disc, not the opponent.

5. The Principle of Verticality: All players have the right to the space immediately above them. Thus, a player cannot prevent an opponent from making an attempt on a pass by placing his/her arms above an opponent. Should
contact occur, the player restricting
the vertical area is responsible.

6. A player who jumped is entitled to land at the same spot without hindrance by opponents. S/he may also land at
another spot provided the landing spot was not already occupied at the time of take-off and that the direct path
between the take-off and landing
spot was not already occupied.

XIV. CLARIFYING STATEMENTS ON FOULS, VIOLATIONS AND PICKS

1. Cardinal Rule:

Whenever an infringement of the rules or a time out occur, play is halted and the disc is put back into play at the
point of the last possession before play was stopped.

2. Continuation Rule:

A. Disc In the Air

- If a foul, violation, or pick is called while the disc is in the air, the play is always repeated.

- If the team which called the foul, violation, or pick gains possession as a result of that pass (e.g., an incomplete
pass following a traveling violation, or offensive foul), play continues unhalted. In this situation, players should call
"play on."

- If the pass is completed, but the defensive effort on the pass was affected by the violation (e.g. picks), the pass
does not count and possession reverts back to the thrower.

B. Disc Not in the Air

- If a foul, violation, or pick is called while the disc is not in the air, and a player attempts a pass before play has
stopped, and the pass is incomplete, it is a turnover.

- If a foul, violation, or pick is called while the disc is not in the air, and a player attempts a pass before play has
stopped, and the pass is completed, the pass does not count, and possession reverts back to the original thrower.

C. It is the responsibility of the player who made the call to call out "Play on" to indicate that this rule has been
invoked.

3. If there is ever a failure to come to an agreement over any call, the disc reverts back to the thrower after a check.

4. If offsetting catching fouls are called by offensive and defensive players on the same play, the disc reverts back to
the thrower after a check.

5. Any time the marker's count is interrupted by the call of a foul, violation, pick, or time-out, the count is resumed
as follows:

<table>
<thead>
<tr>
<th>Foul Type</th>
<th>Count</th>
</tr>
</thead>
<tbody>
<tr>
<td>Defensive Foul Uncontested</td>
<td>0</td>
</tr>
<tr>
<td>Defensive Foul Contested</td>
<td>same</td>
</tr>
<tr>
<td>Offensive Foul</td>
<td>same</td>
</tr>
<tr>
<td>Travel or Pick</td>
<td>same</td>
</tr>
<tr>
<td>Strip</td>
<td>0</td>
</tr>
</tbody>
</table>
Fast Count / Double Team
First Call. ........................................subtract 2; no check
Second Call. .........................................0
Time Out. .......................................... same
Contested Stall .................................8

6. When play resumes after a time out, the stall count is continued from where it was when time-out was called. The marker must initiate the count by calling "Stalling" or "Counting".

7. If the marker counts too fast, the thrower may call "fast count."

A. The first "fast count" call is a warning. On the first "fast count" call, the marker must subtract 2 from the stall count.

B. If "fast count" is called again within the same 10 seconds, play stops and is resumed after a check with the count reset to zero (0).

C. The continuation rule applies to fast counts.

D. If the fast count occurs in such a manner that the thrower does not have a reasonable opportunity to call "fast count" before the utterance of the word "ten," the play is treated the same as a contested stall.

OBSERVERS

1. Before the game, the captains may decide to select up to six (6) experienced non-players to act as Observers. In this role, their job is to carefully watch the action of the game. They do not actively call any fouls, violations, picks, or line calls.

2. When a dispute arises concerning a foul, violation, pick, line call, or an interpretation of the rules which cannot be resolved by the captains to make the call,

A. The observer with the best view of the play makes the call. If the observers so choose, they may discuss the play among themselves before rendering a decision.

B. By calling in the observers, the teams agree to abide by the observers decision.

ETIQUETTE

1. If a foul is committed and not called, the player who commits the foul should inform the infracted player of the foul.

2. It is the responsibility of both teams to minimize the time taken between each goal and the ensuing throw-off.

3. If the receiving team wishes to have an out-of-bounds throw-off re-thrown, they should give the re-throw signal as soon as possible.

4. It is a violation against the spirit of the game for a defensive player to call for a pass from the thrower.

5. Should a dispute or confusion arise on the field, it should be common practice to stop play, and resume play with a check when the matter is resolved.
6. In the case where a novice player commits a violation out of sincere ignorance of rules, it is common practice to stop play and explain the violation.
