CLASS DESCRIPTIONS

MIND & BODY

Power Vinyasa Yoga: Get ready to sweat, be challenged, and have fun! In Power Vinyasa students flow from pose to pose – utilizing the principles of alignment, personal awareness and breath. Classes are physically challenging and creatively designed to transform your body, inspire your practice and help you find your edge. This class is energetically challenging, however, ALL yogis are welcome. Some inversions and arm balances will be offered but use your intuition and do what's best for your practice.

Align and Shine Yoga: A classical alignment yoga practice emphasizing traditional asanas (postures) & pranayama (breath work) while also providing a meditative practice. Focus on flexibility, strength, relaxation, devotion & personal growth. Long holds & floor work.

Hatha Flow Yoga: Hatha is most often used to describe gentle, basic yoga classes with no flow between poses. Expect a slower-paced stretching-focused class with some basic pranayama breathing exercises and perhaps a seated meditation at the end. Hatha classes are a good place to work on your alignment, learn relaxation techniques, and become comfortable with doing yoga while building strength and flexibility.

Pilates: A challenging class that uses mind-body exercises to stretch & strengthen muscles. Pilates focuses on the abdominal powerhouse & works the rest of the body through the core connection. All exercises have prep, beginner & intermediate options, allowing work at individual levels.

Sunrise Yoga: Get your day started off right with this all-levels, hour long class that promotes the body-mind connection while promoting muscular strength, endurance, & flexibility.

Vinyasa Yoga: This all-levels Vinyasa yoga class challenges yogis while offering the freedom to explore, modify & intensify postures & sequences. Each class includes a mix of postures structured around a yoga flow sequence that will strengthen & stretch your body & mind.

Yin Yoga: This class stretches muscles & tissues, while improving range of motion & cultivating an integration between body & mind. In this class, yoga poses are held for as long as 2-3 minutes to allow the muscles to stretch, the body to relax & the mind to find a sense of calm & inner peace.

Hi-Energy Yoga: This innovative class builds on Vinyasa style yoga to connect breath with movement in more creative and challenging ways. Set to upbeat music, students are encouraged to grow and explore by adding postures and modifications as class progresses. This class builds physical and mental strength while encouraging you to connect with your body and step outside your comfort zone! ***COMING SOON***

Stress Relief Yoga: The practice of yoga can help to reduce stress and improve our overall physical and mental health. In this class, we will focus on yoga specifically as a tool for stress relief. We will flow through a feel-good yoga sequence that helps us let go of stress and walk away feeling lighter, calmer, and more open to the present moment.
